

GOOGLE EARTH v.4 Simple Navigation

Type the desired destination into the **Fly To** box and click the search button.

Hide the sidebar

Click to create a **new placemark**

Measuring tool.

Print

Alter the **tilt** of the view up or down.

NAVIGATION
Place mouse in this area of the screen to see the navigation controls.

This is the **Places Panel**. Check the boxes to open and close folders and sub-folders. The check box turns **overlays** and **placemarks** on and off.

The slider changes the **transparency** of active layers.

This is the **Layers Panel**. Turn off all unnecessary layers to keep the screen uncluttered.

The screenshot shows the Google Earth Plus interface. At the top is a menu bar with 'File', 'Edit', 'View', 'Tools', 'Add', and 'Help'. Below the menu bar is a toolbar with icons for search, fly to, measuring, print, and navigation. The left sidebar contains three panels: 'Search' with a 'Fly To' box and search button; 'Places' with a list of locations including 'tokyo', 'Las Vegas', 'Makkah Overlay', and 'Palm Island Overlay', each with a checkbox and a transparency slider; and 'Layers' with a 'View: Core' dropdown and a list of layers including 'Primary Database', 'Terrain', and 'roads', each with a checkbox.

An **active overlay** or placemark is coloured grey

These buttons start and stop a **tour** through the active placemarks.

Turn on to see the **terrain** (shape of the land).

Reset the view to face north.

Joystick to move in any direction

Rotate the view by clicking and dragging the ring

Zoom in or out.

The screenshot shows the main map view of Google Earth Plus. The map is a satellite view of a city. In the top right corner, there is a navigation control panel with a compass, a joystick, and a zoom slider. The compass has a ring that can be rotated. The joystick has eight directional arrows. The zoom slider has a vertical bar with a slider and a '100%' label. The bottom of the map shows the coordinates '33° N 39°49'52.01" E', the elevation 'elev 1093 ft', and the text 'Streaming' and '100% alt 3410 ft'. The 'Google' logo is visible in the bottom right corner.
